Experience

- Educational Mentor**
IEEE (Student Branch)
 - Educate students about the courses our club offers and assist them in completing those courses by resolving any technical or course-related doubts they may have
- Logistics and Publicity Lead**
Generative-Ai
 - As the logistics and publicity lead for Generative-AI, an inter-college hackathon organized by the IEEE (Student Branch), I orchestrated a seamless event that brought together students from various institutions.

Projects

- Nutri-Verse**
 - Developed and maintained Nutri-Verse,a comprehensive health and wellness website featuring a recipe generator for customized meal ideas,a diet sheet planner for balanced nutrition planning,and a weekly blog offering insights and tips on nutrition and wellness trends.
- Student Profile Management System**
 - Developed a Student Profile Management System where administrators can log in to enter and manage student profiles and academic records. Students can log in using their roll numbers to view their personal and academic information. This system ensures streamlined access and management of student data.
- Storyteller Chat-bot**
 - Developed a Storyteller Chat-bot using Gemini Pro,which takes user input for age group and story topic to generate engaging and age appropriate stories. The chat-bot leverages advanced natural language processing to create interactive and personalized storytelling experiences for users of different ages.

Hobbies

- Volunteering Activities
- Traveling to New places
- Public Speaking
- Playing Strategic games like Chess
- Mentoring my friends
